

HCE HOLMES

Contract Engineering

POWER SYSTEM ANNUAL MAINTENANCE

HCE PTY LTD were awarded the contract to complete the annual maintenance switchboard testing on ABB SPAJ protection relays.

HCE have the skills, experience and expertise to conduct complete HV certification testing and commissioning on most high voltage primary and secondary equipment from 1kV to 275kV.

HCE in conjunction with HVPS, own and operate a wide range of specialised test equipment capable of primary and secondary injection testing. All the test equipment is NATA calibrated.

Contact HCE for all your power system annual maintenance and commissioning requirements.
